

THORN BEATS OUR JOHNSON

Defeat of the American Pleases the French Greatly.

PECULIAR PROCEEDINGS

WINNING FRENCHMAN CHEERED BY THOUSANDS.

His Sweater is Torn From His Back, and Replaced by a Tri-Colored Jersey, and He Leads a Triumphant Procession Around the Track—Such a Scene Could Happen Nowhere Else But in France.

PARIS, May 17.—Morin, the celebrated French bicyclist, beat John S. Johnson, the American, in both legs of the 2,000 metres race at the Velodrome d'Alsace today. There was extraordinary interest manifested in the race, and there has been a great deal of warmth of feeling developed between the two principals over misunderstandings as to the time and place of meeting. Both were in a determined mood and spectators felt sure of a good race.

The appearance of the two riders was the occasion of a hearty outburst of applause. Again during the race Johnson was accorded an ovation when he stopped to allow his adversary to change a punctured tire.

Upon the resumption of the race, Johnson led and after several attempts to get Morin in front so as to force him to set the pace, Johnson advanced and led against the rallying. Morin thereupon dismounted and walked off, while Johnson finished the course.

This match was, however, declared void, owing to the leaning on the railing. Upon this, the crowd roared and applied according to the distinction in sympathies took.

A pacemaker was then provided. Johnson again took the lead and after several attempts to get Morin in front, Johnson was again and again beaten by about a length.

The defeat of the American pleased the crowd, and the winning Frenchman was frantically cheered by the thousands of spectators. Some of Morin's admirers decided to take the race to the streets, tearing his sweater from his back and replacing it by a tri-colored jersey in which he rode triumphantly around the track in a triumphant procession amid yelling and acclamations.

Johnson looked in very good part, though he did not relish the treatment that had been accorded him either by his opponent or by the crowd. After the race Johnson said to a representative of the Associated Press:

"I was fairly outpaced on both finishes and I regret that I was not treated in a more sportsmanlike manner by Morin. He had been asked for two laps, he flatly refused to render me any similar service. The crowd pelleted me with gravel as we went down the track."

Tom Eck, Johnson's trainer, said the American would do better in a fortnight. Johnson also said he would ride in Paris next Sunday and Monday, May 20 and 21. He only raced today, Eck said, to satisfy public curiosity.

BURNED UP MILLIONS.

INSURGENTS DO GREAT DAMAGE TO PROPERTY.

Not Content With That They Also Indulge in the Pleasure of Hanging the Proprietor.

HAVANA, May 17.—Today is the tenth anniversary of the birth of King Alfonso XIII, and in order to celebrate that event the fires which have been laid upon the Cuban press have been removed.

Later details have been received of the engagement near Limonar, in Matanzas. The local forces of Limonar made a reconnaissance after the engagement and found nineteen more bodies of insurgents besides the bodies of fifteen which were left on the field. Reliable information has been received here by the authorities that

THE INSURGENT LOSS is much greater than at first believed, and that their leader, Caproni, was seriously wounded. The insurgent leader Caproni is also wounded.

Near Pineda in Havana province, at the farm of Sardon, three squadrons of cavalry surprised a band of insurgents, who set fire to the buildings. The result is supposed the insurgent leader Delgado was killed or wounded.

Captain Quintana, an insurgent, was shot near Sagunay at Mount Castellan, Aguanay, in Havana province, and killed four insurgents.

The column of Colonel Alonzo, passing by Guines de Naranza, in Santa Clara, pursued a band of insurgents and came within six miles of Sagunay, where they upon them a loss of twenty-six killed. The column of troops had four wounded.

Major Quintana has been operating about Vertientes and Jacobo, and Boca de Jaqueco, in the province of Santiago de Cuba, and has captured a band numbering 300, and after a night pat them to flight. They left twenty-six killed. The Spanish column had one killed and eight wounded.

ADVANCES FROM MATANZAS say the insurgents have burned the Guantamo farms of Castel, Casualidad and Destino, which were valued at millions of dollars. They have also burned Juan del Gado Gomez, the proprietor.

After the engagement between Colonel Gonzalez and the insurgents, Gomez, Zayas, Alberto, Rojas and other insurgent leaders in which the insurgents sustained a great loss. It is learned the insurgents marched toward Guines, in Santa Clara, near a place called Guanama. The insurgents at Barbasas number about 200, and they were very poorly clothed. They had distributed there 30,000 cartridges which were brought by a train, half of which were intended for Maceo, also rapid fire cannon.

Castillo had the vanguard of Gomez's forces and Zayas the rear guard and each will be six miles from Gomez's main force. They will be guarded by Castillo and Rodriguez. The rear guard, with a Spanish force, passed through Guaracaballa, in Santa Clara, and it is thought probable will overtake Gomez.

Aids the Insurgents. WASHINGTON, May 17.—Coming immediately upon the severe drought of resources caused by the Cuban rebellion, the Spanish people have now to face the prospect of an almost total loss of the wheat crop caused by the drought and insects.

United States Consul Burke, at Malaga, writes to the state department that a new insect pest as destructive to wheat as the flycatcher is to the grape, has damaged the crops in several provinces, while wheat is suffering in others. The entire wheat crop to be a total failure, but there will be a shortage of every other crop of grain. The poor are suffering much and unless the rain comes the wheat and fruit crops will become a total loss and great suffering and want will prevail throughout the whole country.

Efforts will be made to have the government reduce or remove the import duties on wheat. Losses, however, must be made during the current year.

ONTARIO BLAZE. SARNIA, Ont., May 17.—Fire today destroyed James King's elevator, flour and feed mill. Loss, \$500. Before help had arrived from Fort Huron

Special Commission Representing the Mikado.

JAPS ARE PROGRESSIVE

WANT EVERYTHING THAT IS UP TO DATE.

Many Falls in Japan Will Furnish Almost Unlimited Power, and the Little Men See No Reason Why It Should Not Be Harnessed and Put to Good Use.

SAN FRANCISCO, May 17.—Among the passengers on the steamship China is a special commission from the Mikado of Japan studying the workings of the electrical power and telephone systems in the United States. The commission is composed of S. Mine, R. Natayama and Y. Wadauchi. They will be about two weeks in examining into the telephone and electrical systems of San Francisco, Sacramento, Fresno and other cities and will then proceed to eastern cities. They may also visit Europe. They expect to be absent from Japan six or seven months.

"All over our empire now," said Commissioner Mine, "there is great interest in electrical power and in electrical lighting. Electricity has been introduced in several cities, but the government wants to know the advantages of the same way with telephones. We have seen the value of them and desire to have them generally adopted."

"It is our intention to study into the workings of both systems in the United States. We also intend to get information from the many powerful water falls in our country and use it for electric railways, and we also intend to use it for electricity. It will, according to the ideas of the government, be especially valuable in connection with our various public and private enterprises."

"If it is possible to place the long distance telephones in Japan."

A FEW FOREIGN FACTS.

ST. PETERSBURG, May 17.—Rear Admiral T. O. Seldridge who arrived at Cronstadt on board his temporary flagship, the U. S. S. Minnesota, last week has started for Moscow to attend the coronation of the czar.

PARIS, May 17.—The Gaulois says that Senor Canovas del Castillo, the Spanish premier, is about to ask the intervention of the European powers with regard to the interference of the United States in Cuban affairs.

CAIRO, May 17.—Eleven cases of cholera and nine deaths from that disease is the record today.

ALEXANDRIA, May 17.—There have been twenty-three new cases of cholera and twenty deaths from that disease here.

LONDON, May 17.—A Times dispatch from Cape Town says Cecil Rhodes telegraphed today that he expects a junction with Captain Napier, the rebellion will be broken. He says there are 6,000 natives in the Orange, Shabane, Babeli and Thabasi Indaba.

LONDON, May 17.—A Berlin dispatch to the Standard says: A military court has sentenced Count von Kotze to two years imprisonment, not the least of which is to be served in the fortress of Spangsdorf. He was charged with the murder of Baron von Schrader, which resulted in the death of the latter.

PARIS, May 17.—Paul Peyron, son of Charles Peyron, known as "Peyron the King," and his wife, Mrs. Peyron, were married in the English church at Leully on Saturday.

ST. PETERSBURG, May 17.—A dispatch from Vladivostok to the Novoe Vremya says: "Quik" has been restored to his former position. He will return to his palace from the Russian legation where he has been since the revolution. The Russian marines are returning to their vessels. The dispatch also says that the Russian government has had a gold mining concession granted to it, for fifteen years.

CONSTANTINOPLE, May 17.—Over 1,500 Armenians have been arrested in the capital during the last few days for their participation in fresh manifestations by the Armenian population. Fifty-two Armenians and sixteen Greeks were killed in the Armenian quarter yesterday and seventy-three Turkish students at the military college of Kuleli were arrested for some unknown cause.

MADRID, May 17.—The committee of the chamber of deputies appointed to verify the elections has withdrawn because the liberals threatened to leave the chamber if the election in Cuba were declared illegal.

MADRID, May 17.—The imperialist protests against language used by Senator Moeckan of Alabama, in his speech in the senate on Saturday and against the language used by the queen regent. It also says the Spanish government will make energetic representations against such unbecoming assertions.

AFFAIRS AT HOME.

NEW YORK, May 17.—The mysterious Colorado hotel suicide known as "Mrs. Everett" has once more been identified. A Frenchman, calling himself Felician Foucoummer, at the coroner's office tonight, it is claimed positively identified the woman as Louise Lonsberg, a French woman. He bases his identification on two letters which he says he saw in the other on the body. He says the woman was married in England, but that Lonsberg was her maiden name. She was a singer, singer and well known in Calais, France.

NEW YORK, May 17.—The body of Colonel John A. Cockerell remained in state today at the room of the Press club. The services tonight in honor of the dead journalist were presided over by Joseph Howard. Eulogistic remarks were made by John A. Hennessy, James A. Breslin, William Herr and others.

CHICAGO, May 17.—Two men entered the Columbia restaurant and bakery in Wells street late last night and while one of them with two revolvers induced six persons to remain quiet, the other shot and killed three men. The police today arrested three men. They are Carl Klompberg, the cashier of the East Chicago avenue station tonight but could not identify either of them.

DAYTON, O., May 17.—Samuel Niswanger, a cattle buyer, was found dead in his buggy here today with a bullet in his head. Bertie McDonald, of Brookfield, now arrested, admits that she fired on him in the dark last night as he drove away from her saloon. His horse proceeded to Dayton. Harvey Miller was arrested as an accomplice.

TAMPA, Fla., May 17.—H. Solomon, a prominent merchant of this place, was broken in by a horse in the street of Washington in Washington he was in the street of Senator Quay at his residence. Both Mr. Platt and Senator Quay refused any information as to the object or result of the conference.

CHURCHES YESTERDAY.

Epworth League Day at the First Methodist.

THE WORK OF THE SOCIETY

APOSTLE ABRAHAM CANNON SPEAKS AT THE TABERNACLE.

Discourse by Dr. McNeice at the First Presbyterian—Dr. Holman at the First Congregational—The Young Men's Christian Association.

The services at the First Methodist church yesterday were devoted to the work of the Epworth League. It was the seventh anniversary of the organization, and special and appropriate programmes were rendered in all the M. E. churches throughout the land. The Salt Lake Epworthians were in force at Dr. Bean's church in the morning and listened to an excellent discourse by the pastor on "The Ideal Epworthian."

The evening services were largely attended and the special programme carried out as prepared by the national organization. The exercises opened with the singing of "The Year of Jubilee," followed by responsive reading. After prayer, led by the pastor, "Watchman, tell us of the night" was sung, and this was followed by an address by the president on "The General Progress of the Epworth League."

The president spoke of the marvelous growth of the league since the time of its organization in 1889. He prefaced his address by calling attention to the universal desire of people to be on the winning side. It is the old maxim, "Nothing succeeds like success," is true, the statement could safely be made that the Epworth League is now on the tidal wave of prosperity. The growth of the order itself he thought ought to be a persuasive argument for outsiders to seek identification with this band of young Christian workers.

He then took up the growth of the league and gave some statistics. In 1889 it was organized by seven young people. The following year there were no less than 1,820 chapters. In 1891 the number was 5,600, and in 1928, 192 the figures had increased to 8,102. The growth thereafter has been steady and almost marvelous, in 1929 numbering 16,200 chapters, in 1930, 19,000, and in 1931, 21,418, and at the present time the international organization numbers 15,500 within its jurisdiction. The membership now is about 1,000,000.

The Junior League, an organization closely allied to the Epworths, has a membership of something like 250,000. The motto of the league is "Look up, not down." Some of the work has been done by this band of workers may be had when it is stated that 100,000 souls were converted during the past year by the united efforts of these two societies. The work has not been confined to home fields alone. There are chapters in nearly every civilized country on the globe. Scandinavia has 300, Mexico 30, Germany 500, China and Japan 100 chapters.

In closing the president spoke of the practicality of the work engaged in, and predicted a still greater success in the future. It is measured by the past. After singing "O Worship the King," Dr. Beans was called upon and spoke briefly on the mercy and help department of the league's work.

The speaker said that an anniversary such as this is a fitting occasion for the league to look back upon its past and to consider its future. The subject might be divided into past, present and future. The future could be foretold by considering the past. The speaker said that the logical conclusion must be made that the league is destined to greater success spiritually than it has ever experienced since its organization. The work of the league will be to make Christian young men and women. Upon the young of today more or less depends the success of the future church; hence the paramount importance of raising a host of young men and women. Its mission was not to work among its own members but outside more so.

The consecration service followed Mr. Cannon's address, and the congregation kneeling repeated in unison the Epworth league vow, and concluded impressively by singing "Breathe on Me, Breath of God," after which the league benediction was pronounced.

THE TABERNACLE.

Yesterday's blue skies brought out one of the largest congregations at the Tabernacle seen for some time. The whole lower floor was filled, and it was seriously contemplated opening the galleries.

The choir sang an opening hymn and Elder Coddard offered the opening prayer.

The choir rendered in a beautiful manner "From Afar, Gracious Lord, Thou Hast Gathered Thy People." Abraham H. Cannon was the first speaker. He began: "The title of the anthem just rendered is 'From Afar, Gracious Lord, Thou Hast Gathered Thy People,' and it reminds me how many people have been gathered from all the countries of the world in perfect union and harmony to build up a Zion upon earth."

Our elders have gone out to the most remote corners of the world; they have gone to people who were bound to their country by every possible tie of country, love of home, every-thing. And yet these people have forsaken everything for the gospel."

The speaker gave an example of a Swiss convert, who wished to embrace the gospel, but would not leave his country. He was told that it was not necessary to immigrate, was baptized and received the Holy Ghost by the laying on of hands. "Soon after he became restless and it wasn't a week before he wished to gather with Zion."

"To every good Latter-day Saint this gathering speaks a parable, of how Zion must unite in one grand flock from every portion of the earth." The speaker then went on to say how necessary it is to have faith. Our lives should all lead up in a godly way to the great judgment day. Make use of your advantages, lest you be punished for not so doing.

He spoke of the conduct in this life, and how the individual would be rewarded in the hereafter.

"We believe that in our Father's house are many mansions. I believe that there is spiritual progression in eternity, and that when we come before our God for final judgment we will receive the reward of our labors."

CIRCULATION OF THE BIBLE.

In 1894, when the British and Foreign Bible society was founded, not more than 5,000,000 copies of holy writ existed printed in thirty-five languages. At the present moment something like 147,000,000 copies, including 4,000,000 added to the total last year, in 330 different languages, are in circulation, while the sacred book is now being translated into 180 additional tongues.

THE BUG AND THE ELEPHANT.

One day as the sage was making his rounds among his subjects he was halted by the Bug, who began:

"O Sage, the elephant has abused me in the most shameful manner, and I cry for justice."

"So Jumbo has been picking on you, eh?" queried the Sage. "State your case."

"I was going down the path and he was coming up, and he refused to turn aside when I called to him."

"No, O Sage. When I attacked him he paid no attention to me. I don't believe he even knew that I pitched into him."

"Sad—very sad. What do you propose?"

"That you, O Sage, turn all the bugs into elephants and all the elephants into bugs."

"My brave friend," said the Sage as he tickled his left ear, "that would only be to make the same number of bugs and elephants as now, with the least complaint, and the world at large would be no better off."

Week following, Maggie Mitchell's wonderful play of "PANCHON."

Dr. McNeice preached at the First Presbyterian church this morning, taking his text from the fifth chapter, seventh, eighth and ninth verses of Revelation: "And he came and took the crown of the order itself he thought ought to be a persuasive argument for outsiders to seek identification with this band of young Christian workers."

Dr. McNeice said that these familiar with the Bible and qualified to understand the significance would find it difficult to read through the fifth chapter of Revelation without being disturbed. When a man was qualified, he saw wonderful visions and angels. Such a man was the Apostle John. He was at home with God and God was at home with him. John saw the Father and the Son and the Holy Spirit and he saw the throne of God. He was almost discouraged, but on one occasion when pondering over the vision he was banished to the barren isle of Patmos. He was almost discouraged, but on one occasion when pondering over the vision he was banished to the barren isle of Patmos.

The vision which followed was described and it was John's faith which allowed him to see the Father and the Son and the Holy Spirit. The vision which followed was described and it was John's faith which allowed him to see the Father and the Son and the Holy Spirit.

Dr. F. O. Holman filled the pulpit at the First Congregational church yesterday morning and delivered an interesting discourse.

The Pentecost festival was celebrated at Temple B'nai Israel last evening. The music was very fine.

Y. M. C. A. "Rocks in Professional Life" was the subject of an address by Hon. Frank Pierce at the Young Men's rally yesterday afternoon. The attendance was large.
